NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by ACT test scores or by COMPASS test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, some or all of the following seven (7) courses may need to be taken:

- MATH 0003 Pre-Algebra
- MATH 0023 Concepts of Algebra
- MATH 0123 Intermediate Algebra
- ENGL 0123 Basic Composition
- READ 0123 Basic Reading
- READ 1113 College Reading
- BSCI 0123 Intro to Basic Science

This Associate in Science degree program in Agricultural Sciences consists of 62 hours designed to provide the student with the first two years of general requirements.

The program is designed for seamless transfer to the Bachelor in Science degree in Agriculture Business or Agriculture Ecology at Northwestern Oklahoma State University and includes courses generally completed in the first two years of a baccalaureate degree program.

Students should consult the catalog of the college or university to which they plan to transfer and carefully select courses which will meet requirements for both Associate's and Bachelor's degree programs.

The agricultural sciences program prepares students interested in pre-veterinary medicine, animal production, plant production, agribusiness, food science, and education in any of these areas for transfer to four-year institutions. The foundations of scientific- and business-based agricultural practices are explored. People interested in careers in agriculture need to have experience in science, business, and communications.

Students need to consult with the engineering school of interest for Chemistry and Biology requirements.

This is a suggested sequence timeline only. A student may require more than four semesters to complete this Associate in Science degree.

The Associate in Science degree in Pre-Engineering is designed to transfer into all disciplines of engineering. It is important to secure a catalog from the engineering school for transfer so you may select the courses to meet the requirements needed to obtain the Bachelor's degree you choose.

The program features small class size and individual attention for this challenging degree.

The Associate in Science degree in Athletic Training is designed to prepare students adequately for the athletic training programs offered at four-year institutions.

Under the supervision of a licensed physician, the athletic trainer serves an important role in the health care system of recognizing, preventing, evaluating, managing, and rehabilitating sports injuries.

Athletic Training is recognized by the American Medical Association as an allied health care profession. Specifically, the Athletic Trainer specializes in five practice areas: Prevention of athletic injuries; Recognition, evaluation and immediate care of athletic injuries; Rehabilitation and reconditioning of athletic injuries; Health care administration; Education and counseling.

Students who desire to become candidates in Athletic Training are required to make a formal application to the Athletic Training department for admission to the program. This application must be submitted on or before April 15<sup>th</sup> and formal approval is required. GPA and ACT composite scores are weighed heavily as acceptance is highly competitive.

This is a suggested sequence timeline only. A student may require more than four semesters to complete this Associate in Science degree.

The Associate in Science degree program in Biology/Zoology prepares students to transfer to a four-year university to pursue a Bachelor's degree or entry into the field of life science.

Students transferring should consult the catalog from the institution to which they are planning to transfer to carefully select courses that will meet requirements to complete their Bachelor's degree.

**Career Opportunities**

- Animal/Plant Production
- Dental Assistant
- Farming
- Horticulture
- Laboratory Assistant
- Sales
- Veterinarian Assistant
- Wildlife Production

NOC evaluates students for placement into either foundational or college-level courses, whichever will lead to the greatest possibility of student success. Academic placement is determined either by ACT test scores or by COMPASS test scores. These tests are administered in the Testing Center at NOC. Based upon the scores, some or all of the following seven (7) courses may need to be taken:

- MATH 0003 Pre-Algebra
- MATH 0023 Concepts of Algebra
- MATH 0123 Intermediate Algebra
- ENGL 0123 Basic Composition
- READ 0123 Basic Reading
- READ 1113 College Reading
- BSCI 0123 Intro to Basic Science
